Hi Tom,

Thanks so much for your help. Here are a couple of examples:

OSRE Participates in RCRA Division Directors Meeting – On November 15 – 16, 2017, two OSRE representatives participated in the RCRA Division Directors meeting at the Region 1 office in Boston, Massachusetts. The Corrective Action (CA) session covered measures (e.g., proposed Ready for Anticipated Use measure), efforts to try to meet the CA program's goals for the year 2020 (CA 2020 Goals), setting future goals, identifying

additional facilities to be included in the CA universe and long-term stewardship. During the enforcement and compliance session, the OSRE representatives presented information about CA inspection and enforcement training and using CERCLA authority at RCRA facilities. In addition, they expressed OSRE's commitment to support the Regions with their CA enforcement cases and to help the Regions address facilities that may not meet the CA 2020 Goals because of enforcement issues. Other sessions at the RCRA Division Directors meeting included data visualization, which is an approach designed to communicate information clearly and efficiently using graphics, financial assurance, budget and program planning and management.

RCRA Section 7003 Administrative Consent Order Issued For Site Investigation and Necessary Remedial Action at North Field Properties in Woodbridge, New Jersey

On September 19, 2013, Region 2 issued a RCRA Section 7003 Administrative Consent Order ("AOC") to four corporate respondents for appropriate site investigation and any necessary remediation of contamination of a 17.8 acre former industrial site in Woodbridge Township, New Jersey. The respondents are Philbro Animal Health Corporation, C.P. Chemicals, Legacy Vulcan Corp., and North Field Extension LLC, a special purpose corporation formed by the other respondents specifically to manage the AOC obligations. The site has not been used for industrial purposes for many years, but preliminary studies indicate the presence of soil contamination involving metals and other hazardous constituents, and the 3 corporate respondents, including predecessor corporations, previously carried out industrial activities affecting the site. Chevron, which formerly operated an oil refinery and asphalt plant adjacent to the site, owned the North Field Extension property since 1958, but never used it for industrial purposes, and transferred the property to North Field Extension LLC prior to EPA's issuance of the AOC. The AOC requires respondents to complete studies necessary to fully characterize site conditions, and thereafter to conduct a Corrective Measures study to serve as the basis for necessary remedial measures, which will be subject to EPA review and approval. The respondents will be obligated to carry out the approved remediation measures according to an EPA approved implementation timetable, and to provide post-remedial care. The respondents are also obligated to provide financial assurance for completion of the remedial work and post-remedial care, and are subject to stipulated penalties for non-performance of the Order's requirements. No comments were received by EPA from the public concerning the AOC during a public comment period.

Peace, Elisabeth

If you have an example I can use so I know the correct format, I believe we can move forward although R5 management may wish to see. Thanks, Tom

Susan is the requestor. I just want to make sure that I'm consistent and not sharing information that you aren't ready to share.

I have to get something to Susan by tomorrow mid-morning.

Peace, Elisabeth

Elizabeth,

Could you let us know who this briefing document is for or who has requested it? Susan Bodine or the Administrator?

Thanks,

Larry

Hi Tom,

I think my deadline is sometime tomorrow morning. Are you planning to submit a summary for the Administrator's weekly? I think that deadline is usually around COB Tuesday, however, with the shortened week, I think the deadline was moved to tomorrow.

Thanks for your help.

Peace, Elisabeth

We have a few items that generally were prepared for close-hold but which , I believe, we could edit. Do you have a turn-around time? Tom

Hi Everyone,

I was just asked to put together a summary of the actions to date at Wolverine. Have you prepared anything for the Administrator's weekly that you could email me?

Thanks, Elisabeth
